RTTS Becomes Oracle PartnerNetwork Gold Level Partner

Oracle Recognizes RTTS for Expertise in Developing QuerySurge™ for Automated Data Warehouse Testing

New York, NY – August 23, 2011 – [RTTS](#), the leading provider of software quality assurance services, today announced that it has achieved Gold Partner status in the [Oracle PartnerNetwork](#) (OPN). By attaining Gold Level membership, Oracle has recognized RTTS for its commitment to establish Oracle related in-depth expertise and excellence in delivering [QuerySurge™](#), a tool to automate data warehouse testing, and for uniquely addressing the challenges of joint customers who are implementing data quality initiatives.

RTTS has been the premiere provider in the software quality arena for over 15 years. Their team of test experts developed QuerySurge™ in 2004 to address the testing needs in the data warehousing space. It has been implemented in projects ranging from data warehousing and ETL processes to data migrations and database upgrades. QuerySurge™ can verify as much as 100% of all data from source systems, through the ETL process, to the target data warehouse. It has increased test coverage and reduced test cycle time for many organizations, helping them to mitigate risk and meet business requirements. RTTS' Oracle PartnerNetwork Gold Level Partnership is in direct strategic alignment with QuerySurge™.

"Oracle is the undisputed leader of the data warehousing space," said Bill Hayduk, President and Founder of RTTS. "Our new partnership allows us to leverage Oracle's technologies under the hood to power QuerySurge."

With its Gold status, RTTS receives the benefit of being able to start developing specializations that will allow them to grow their business, increase their expertise, reach higher levels of customer retention, and create differentiation in the marketplace. Gold members also become eligible to resell all Oracle Technology products and can apply to resell Oracle Applications and Industry Solutions. In addition, they receive access to Oracle account representatives and My Oracle Support updates for all products, discounts on training, limited free assessment/exam vouchers, reduced rates on the purchase of Oracle licenses for internal use, discounts on advanced customer services and more. For more information about the benefits of becoming an Oracle Gold level partner, please visit: <http://www.oracle.com/us/partnerships/index.htm>

About Oracle PartnerNetwork

Oracle PartnerNetwork (OPN) Specialized is the latest version of Oracle's partner program that provides partners with tools to better develop, sell and implement Oracle solutions. OPN Specialized offers resources to train and support specialized knowledge of Oracle products and solutions and has evolved to recognize Oracle's growing product portfolio, partner base and business opportunity. Key to the latest enhancements to OPN is the ability for partners to differentiate through Specializations. Specializations are achieved through competency development, business results, expertise and proven success. To find out more visit <http://www.oracle.com/partners>.

About RTTS

RTTS offers the most comprehensive suite of quality assurance services to help organizations drive positive results from their critical software projects. Headquartered in New York, NY, its expert team has worked closely with over 400 clients to improve their testing processes, tool knowledge, and application deployment outcomes. RTTS was founded in 1996, and has forged partnerships with the world's leading test tool vendors. Its satellite locations are in Philadelphia, Atlanta, and Phoenix, and many of its consulting and education services are offered through the cloud. No matter where you are, RTTS will ensure application functionality, performance, scalability, and security for your organization. To find out more visit <http://www.rtts.com>.
